

Stadtspital Zürich

Wellness at the Workplace

Thursday, October 20th 2022
5:00 – 7:00 p.m. CET
Online-Symposium

A collaboration of the Swiss Society of Emergency and Rescue Medicine and the Canadian Association of Emergency Physicians

"We all went into our professions for a reason. We had goals, dreams, and aspirations. As time passes and as challenges ensue, the passion dies and is replaced with feelings of jadedness and overwhelm. We all want to live a life of significance and make a difference, but how can we, when we feel stuck in a career, we thought we loved but now, for the lack of a lighter word, hate. Whether it's dealing with clients, patients or difficult colleagues, each encounter takes a piece of the love you had for your work. Life's whirlwinds don't help as the passion fades and is soon completely forgotten."

Dr. Nour Khatib

Speaker & Emergency Physician
