The Aesculap Academy is one of the leading medical forums for everyone who is professionally, passionately and ambitiously committed to people’s health. To these medical professionals we offer top quality knowledge transfer based on internationally recognized quality criteria using innovative methods and technologies.

**DIALOG – DEDICATED TO LIFE.**

The Aesculap Academy has its roots in the company B. Braun, which has been protecting and improving people’s health for more than 175 years. With our courses, hands-on trainings and symposia, we help to honor our parent company’s promise of SHARING EXPERTISE.

The courses at the Aesculap Academy offer participants who want to continue to learn in an inspiring environment knowledge transfer that is adapted to real life: lifelong learning, true-to-life training situations and realistic content for a better life for patients and medical staff.

AESCULAP ACADEMY – a B. Braun company
Dear Colleagues

Can we impact outcome through our regional anesthesia practice? How can regional anesthesia be translated into an actual advantage for our patients? How should we manage risk related to regional anesthesia in our daily practice? These compelling questions will be addressed during SARA Spring Symposium 2017.

The event will be preceded by practical hands-on workshops, after which you will be able to:

- Understand the principles of ultrasound imaging
- Define the common steps in performing an ultrasound-guided nerve block
- Understand the basics of ultrasound guided continuous perineural catheters, including indications and proper technique
- Integrate ultrasound-guided nerve blocks into your clinical practice
- Achieve improved patient outcomes through the successful adoption of regional anesthesia practice

SARA board is looking forward to meet you in Locarno!

Dr Andrea Saporito
Senior Consultant Anesthesiology
ORBV Ospedale Regionale di Bellinzona e Valli, Bellinzona

Prof. Dr Alain Borgeat
SARA president
Clinical Instructor Anesthesia
Balgrist University Hospital, Zurich
